Vehicle type/engine type is a code given by the vehicle manufacturer, model specific. This code is recorded in vehicle documents and in its Certificate of conformity. It can happen that the year of registration of a vehicle is not matching the model year, so in case on any doubts please always check that the vehicle type stated on vehicle documents matches the information given in HP CORSE web site and catalogue. Also, being the approval of an exhaust system type-specific, please carefully check this information carefully, to avoid to purchase exhaust that cannot be used or fitted on specific models.

CARB California laws prohibit the use of any aftermarket exhaust part or system that modifies, removes or replaces original equipment catalysts unless the California Air Resources Board has issued an Executive Order regarding such part or system or unless the part or system is exempted by being used only on racing vehicles on closed courses. Neither HP CORSE nor any of its distributors make any statement that any of their parts or systems has received such an Executive Order or that any of their parts or systems conform with the racing vehicles exemption.
